

KIRTIKA KANWAR

Jaipur, Rajasthan, India | 9057276123 | kirtikakanwar071023@gmail.com | linkedin.com/in/kirtikakanwar

3rd-year student with hands-on Excel and SQL skills seeking a Data Analytics internship. Comfortable turning raw data into pivot-table reports and writing SQL queries for aggregation and analysis; currently building on this through independent projects and coursework in Economics.

EDUCATION

B.A. B.Ed (Integrated) — Economics — Shree Bhawani Niketan Mahila Mahavidyalaya 2024 – 2028 (Expected) | Jaipur

- Relevant coursework: Economics, Statistics fundamentals
- Senior Secondary (Class XII): Informatics Practices — foundational database and SQL exposure

PROJECTS

(See attached project portfolio for screenshots and query details)

Personal Habit Tracker (Excel) — Self-Directed Project 2026

- Built a 21-day habit-tracking workbook covering 9 habits, using conditional formatting, daily/weekly completion formulas, and a trend chart to visualize consistency over time
- Calculated daily and per-habit completion rates (%) from raw log data to identify patterns

SQL Practice Project — Student Records DB — Self-Directed Project 2026

- Designed and queried a Student database table using SQL — SELECT with filtering (WHERE), sorting (ORDER BY), and aggregations (COUNT, AVG) grouped by subject and class
- Practiced data modification with UPDATE and DELETE statements to simulate real record management

EXPERIENCE

Team Head — Brahm Foundation (NGO) 1-Month Internship | Jaipur

- Led a team executing community-facing initiatives — owned planning, delegation, and execution end to end
- Coordinated logistics and volunteer effort across the initiative's lifecycle, reporting on progress and outcomes
- Developed strong attention to detail and structured documentation habits while tracking initiative progress

SKILLS

- Data & Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Conditional Formatting), SQL (SELECT, WHERE, ORDER BY, GROUP BY, aggregate functions), Basic Python, MS Word & PowerPoint
- Analytical: Data cleaning and organization, trend identification, report preparation and documentation
- Core: Attention to detail, structured communication, independent problem-solving, adaptability

LEADERSHIP & ACHIEVEMENTS

- 3rd Place, Devil's Advocate — Sangam'26 Lit Fest
- Verbal Mention, AIPPM — MNIT Jaipur
- Two-time Delegate, National Youth Parliament

KIRTIKA KANWAR — PROJECT PORTFOLIO

kirtikakanwar071023@gmail.com | 9057276123

SQL Practice Project — Student Records Database

Designed a Student records table and wrote a set of SQL queries covering core operations: retrieving and filtering records (SELECT, WHERE), sorting results (ORDER BY), grouping and aggregating data by subject and class (GROUP BY, COUNT, AVG), and modifying records (UPDATE, DELETE).

queries.sql × +

```
3 CREATE TABLE Student (  
7     Subject VARCHAR(20),  
8     Marks INT  
9 );  
10  
11 INSERT INTO Student VALUES (1, 'Aarav', '12A', 'Maths', 88);  
12 INSERT INTO Student VALUES (2, 'Diya', '12A', 'Science', 92);  
13 INSERT INTO Student VALUES (3, 'Rohan', '12B', 'Maths', 76);  
14 INSERT INTO Student VALUES (4, 'Isha', '12B', 'English', 85);  
15 INSERT INTO Student VALUES (5, 'Kabir', '12A', 'Science', 67);  
16  
17 -- 1. Show all records  
18 SELECT * FROM Student;  
19  
20 -- 2. Show students with marks above 80  
21 SELECT * FROM Student WHERE Marks > 80;  
22  
23 -- 3. Show only Name and Marks, highest first  
24 SELECT Name, Marks FROM Student ORDER BY Marks DESC;  
25  
26 -- 4. Count students in each Subject  
27 SELECT Subject, COUNT(*) AS TotalStudents FROM Student GROUP BY Subject;  
28  
29 -- 5. Average marks per Class  
30 SELECT Class, AVG(Marks) AS AverageMarks FROM Student GROUP BY Class;  
31  
32 -- 6. Update a student's marks  
33 UPDATE Student SET Marks = 95 WHERE RollNo = 3;  
34  
35 -- 7. Delete a student record  
36 DELETE FROM Student WHERE RollNo = 5;
```

I/O AI Agent 362 ms

STDIN

Input for the program (Optional)

Output:

RollNo	Name	Class	Subject	Marks
1	Aarav	12A	Maths	88
2	Diya	12A	Science	92
3	Rohan	12B	Maths	76
4	Isha	12B	English	85
5	Kabir	12A	Science	67

RollNo	Name	Class	Subject	Marks
1	Aarav	12A	Maths	88
2	Diya	12A	Science	92
4	Isha	12B	English	85

Name	Marks
Diya	92
Aarav	88
Isha	85
Rohan	76
Kabir	67
Subject	TotalStudents
English	1

Query output: full record view, filtered/sorted results, and subject-wise counts.

queries.sql × +

```
7     Subject VARCHAR(20),  
8     Marks INT  
9 );  
10  
11 INSERT INTO Student VALUES (1, 'Aarav', '12A', 'Maths', 88);  
12 INSERT INTO Student VALUES (2, 'Diya', '12A', 'Science', 92);  
13 INSERT INTO Student VALUES (3, 'Rohan', '12B', 'Maths', 76);  
14 INSERT INTO Student VALUES (4, 'Isha', '12B', 'English', 85);  
15 INSERT INTO Student VALUES (5, 'Kabir', '12A', 'Science', 67);  
16  
17 -- 1. Show all records  
18 SELECT * FROM Student;  
19  
20 -- 2. Show students with marks above 80  
21 SELECT * FROM Student WHERE Marks > 80;  
22  
23 -- 3. Show only Name and Marks, highest first  
24 SELECT Name, Marks FROM Student ORDER BY Marks DESC;  
25  
26 -- 4. Count students in each Subject  
27 SELECT Subject, COUNT(*) AS TotalStudents FROM Student GROUP BY Subject;  
28  
29 -- 5. Average marks per Class  
30 SELECT Class, AVG(Marks) AS AverageMarks FROM Student GROUP BY Class;  
31  
32 -- 6. Update a student's marks  
33 UPDATE Student SET Marks = 95 WHERE RollNo = 3;  
34  
35 -- 7. Delete a student record  
36 DELETE FROM Student WHERE RollNo = 5;
```

I/O AI Agent 362 ms

STDIN

Input for the program (Optional)

Output:

RollNo	Name	Class	Subject	Marks
1	Aarav	12A	Maths	88
2	Diya	12A	Science	92
4	Isha	12B	English	85

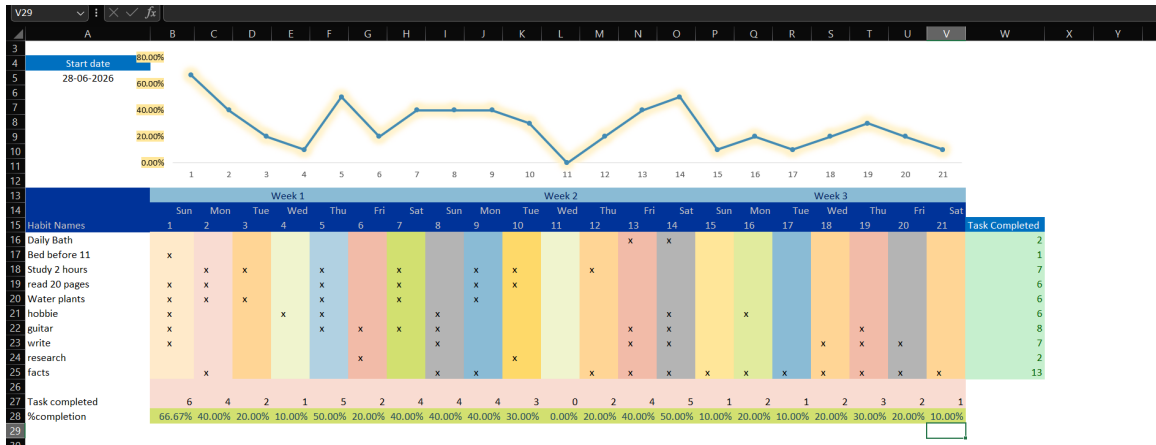

Name	Marks
Diya	92
Aarav	88
Isha	85
Rohan	76
Kabir	67
Subject	TotalStudents
English	1
Maths	2
Science	2

Class	AverageMarks
12A	82
12B	80

Aggregate output: subject-wise totals and average marks grouped by class.

Personal Habit Tracker — Excel

Built a 21-day habit-tracking workbook covering 9 habits. Used conditional formatting to mark completed days, formulas to calculate daily and per-habit completion totals, and a line chart to visualize the day-by-day completion percentage trend across the 3-week period.

Habit log with per-day/per-habit totals, completion %, and trend chart.
